

WHAT IS TOPTRACER GOLF?

Toptracer Range has joined forces with leading golf and sports graphics company SimWay to revolutionize the concept of playing a round of golf. Long gone are the countless hours at the course and miles of walking.

You might recognize Toptracer from TV broadcasts of professional golf events from around the world. Toptracer Range uses the same proprietary tracking technology, with advanced sensors and software, making it possible to accurately capture all shots hit on a driving range.

Northway Golf's Toptracer facility is heated and available for year round play and their onsite catering allows for a true VIP Golf experience.

This event is a great opportunity to treat your team at work and/or clients to a fun afternoon while helping a wonderful local charity.

We promise you'll have a great time we know that your support will make a huge difference to the families we serve.

Building on Love salutes our friends at the Northway Golf Center for their continued support. We look forward to a wonderful event in your first class venue.
